The Northwest Center for Occupational Health and Safety is one of 16 Education and Research Centers funded by the National Institute for Occupational Safety and Health (NIOSH). The Center is responsible for promoting health and safety training and information programs in Washington, Oregon, Idaho, and Alaska. It provides graduate and continuing education programs to upgrade the skills of people working in the broad disciplines of occupational and environmental health.

### Who should attend

Occupational health nurses, physicians, safety professionals, industrial hygienists, public health professionals, risk and human resource managers, and anyone responsible for disaster management planning.

### Accreditation

Professional credit will be available for nurses, industrial hygienists, and safety professionals. Physicians may apply this course toward Category 2 CME credit.

### Course Information

# Disaster Management

## Planning, Response & Recovery

*Are you and your organization ready for a disaster at your workplace or in your community?*

**D**isasters can occur without warning and include natural and man-made events. While many high profile disasters, including our recent earthquake and the 9/11 terrorist attacks, have caused alarm, both individuals and organizations can prepare for and manage disaster situations.

This course will provide tools and resources for you to prepare and evaluate a disaster plan, to respond in the event of a disaster, and to recover from the disaster in a timely fashion. It will include:

- Nuts and bolts of disaster management.
- Lessons learned from disasters in California, Tokyo, and our own backyard.
- Resources and tools for the manager/planner.
- Business and psychosocial impacts of disaster.
- Disaster recovery.

At the end of this course, participants will be able to:

- Identify one element necessary to prepare and evaluate a disaster plan.
- Apply “lessons learned” to your own organization.
- Recognize the short- and long-term psychosocial impact of disasters.
- Access tools and resources available to effectively plan, respond, and recover from a disaster.
- Apply concepts of disaster management to a realistic Capstone “Tabletop” scenario.

### Speakers

**Randal D. Beaton, PhD, EMT.** Research Professor, Department of Psychosocial and Community Health, University of Washington (UW), Seattle, WA.

**Dessye-Dee Clark, PhD, ARNP.** Affiliate Assistant Professor, UW, and Psychiatric Nurse Practitioner, Children’s Hospital, Seattle, WA.

**Cynthia Frankel, BSN, MN.** Disaster Management and Emergency Planning Consultant, Lafayette, CA.

**Marilyn L. Hau, MS, RNC, COHN-S, ASP, OHST, CHMM.** Director of Environmental Health and Safety, University of Illinois at Chicago, Chicago, IL.

**Kenichiro Taneda, MD.** Senior Fellow, General Internal Medicine, UW, VA Puget Sound Health Care System, Seattle, WA.

### Planning Committee

**Randal D. Beaton, PhD, EMT, Course Co-Director.** Research Professor, Department of Psychosocial and Community Health, UW, Seattle, WA.

**Michelle Kom Gochnour, MN, RN, COHN-S, Course Co-Director.** Assistant Director and Senior Lecturer, Occupational Health Nursing Program, School of Nursing, UW, Seattle, WA.

**Mary K. Salazar, EdD, RN, COHN-S.** Director and Professor, Occupational Health Nursing Program, School of Nursing, UW, Seattle, WA.
